

Wines: Potro Salvaje (generic blend level)

Potro Salvaje means 'Wild Horse', the untamable beast whose spirit refuses to be repressed.

This range is in memory of our local cowboys who take this spirit and manage to shape and control their horses so that they can be successfully managed for daily work.

In the same vein, for this range we have harnessed the spirit of our land and carefully molded it into some wonderfully youthful wines that can be enjoyed for everyday drinking.
